This program was written to print two labels and save the label and write a backup file. I used this program at the expo held in Milwaukee in June of 1990. Use it if you like.

THE MEETING

The December meeting was a very small one. Only 6 members showed up but since their will not be a January meeting I hope the February meeting will be better. Also the February meeting will be the "Annual Meeting." We will have the elections and maybe even some new blood. If your not there YOU may be elected president. So be forewarned and show up. This is your official notice of the annual meeting.
